Release Summary

Product: YourDay
Team: YourDay Development Team
Release Name: Release 1.0
Release Date: June 3rd, 2025

Key User Stories

Task Creation

- As a user, I need to be able to **easily access/see all my active tasks.**
  - View uncompleted tasks
  - View completed tasks
  - Tap to view task descriptions
- As a user, I want to **add tasks**, so that I can set up a new to-do list every day.
  - Tap a button to open a popup for adding a task
  - In the popup, add a due date/time for the task
  - In the popup, add a title to the task
  - In the popup, add a description to the task
  - Swipe to delete tasks
- As a user, I want to **be able to check off completed tasks** over the course of the day, so I can quickly remember what needs to be done.
  - Tap a button on the task to mark it completed
  - Completed tasks move to the bottom of the task list

LLM Breakdown

- As a user, I want the ability to **easily make tasks from written notes** using an LLM, so they are easier to accomplish.
  - Swipe from the task view to the notes view
  - View existing notes
  - Tap a button to create a new note
  - While viewing a note, tap a button to generate tasks
  - Review generated tasks before adding them

Reminders

- As a user, I want to be **reminded to check off completed tasks** by the end of the day, in case I'm too busy during the day to do it.
  - Receive nightly reminder notifications

- - Customize daily reminder frequency
    - Receive reminders when in one location for a long period of time
  - As a user, I want **reminders of what was left incomplete at the start of the day**, so I can make sure to complete any of my pending tasks.
    - View popup that displays tasks that were incomplete the previous day when opening the app
    - Tap a button to migrate those tasks to today's list

Gamification

- As a user, I want to **use the points I gain from completing tasks** to customize my app so that I feel attached to my progress and motivated to continue.
  - Receive points from completing tasks, task are worth garden value divided by 5
  - Spend points in a shop to receive a random plant from a selected season
  - View existing plants in a 'garden' view
  - Place plants in the garden to plant them
  - Water plants to help them grow
  - See plants wither when not watered for 5 days
  - Receive interactive tutorialization instructing how the above features work

Account Creation

- As a user, I want to **create an account**, so I can use the app and sync my tasks across devices.
  - View login screen
  - Tap button to sign in with existing Google account

Known Problems

- Additional banner in shop that allows users to buy withered plants (not intended)
- Location-based notifications may be finicky on actually getting sent on time
- If a user deletes the app before signing out, their progress in the database may be reset

Product Backlog

- Task wrapped
  - As a user, I want to **view my accomplished tasks at the end of each week** so that I can see if I'm keeping pace with my own goals.
